

## LONG SPEECHES ON THE TARIFF

Smoot and Lodge the Offenders and Both Talked for Highest of Rates.

### DOLLIVER TAKES OFFENSE

DEFENSE OF GENERAL APPRAISERS BY SENATOR ROOT.

Washington, June 1.—After, in effect, receiving information from Chairman Aldrich that beginning with tomorrow night sessions for the consideration of the tariff bill would be held, the senate today began consideration of the cotton cloth schedule.

There were not many speeches, but those made were of considerable length. Senators Smoot and Lodge, both majority members of the finance committee, were the principal orators, and both spoke in support of the committee provisions.

The Utah senator discussed the subject from a technical standpoint, concluding that the senate bill does not, in reality, increase duties contemplated by the Dingley law. He undertook, however, to show that by various rulings of the customs authorities these duties had been reduced by an average of 20 per cent. It was the purpose of the committee to carry into effect the existing law. He declared that the committee had been influenced neither by manufacturers nor importers.

#### Lodge Speaks for His Party.

Senator Lodge gave special attention to the general policy of the Republican party with reference to tariff revision. He contended that there had been no intention of revising the tariff downward, but that the purpose of the party had been merely to revise the tariff as to protect American manufacturers against cheap foreign labor. He declared New England factories were returning only small dividends to their owners, and traced the general increase in the prices of commodities to the enlarged volume of gold in the country, rather than to the advantages accruing from the protective system. He explained at length the process of mercantilization in order to show that the protective rate allowed for this process was not excessive.

#### Dolliver Indignant.

Senator Dolliver took exception to a remark by Senator Aldrich. The Iowa senator had offered an amendment to the cotton schedule providing for ad valorem rather than specific duties, whereupon Mr. Aldrich made incidental reference to senators "who come here with importers' briefs."

Mr. Dolliver replied sharply, but when Mr. Aldrich explained that he had not meant any reflection, business proceeded with serenity.

Later the senator from Iowa said reflections upon his course had come from behind the doors of the finance committee. This was said in response to a defense by Senator Root of the board of general appraisers to which reference had been made by Mr. Dolliver.

At 5:30 p. m. the senate adjourned until 10:30 a. m. tomorrow.

The house was in session only thirteen minutes, adjourning until Thursday, without transacting any business.

#### NATIVE SON ARRESTED.

San Francisco, June 1.—Charles H. Turner, former grand secretary of the Native Sons of the Golden West, was placed under arrest tonight on a warrant charging him with felonious and unlawful connection with the alleged shortage of money to \$6,000 in his accounts. The complaint was sworn to by Daniel A. Ryan, acting president of the organization.

A private safe may be rented in the fire and burglar proof vault of the Salt Lake Security & Trust Co., 32 up Main street, \$2.00 per year and upwards.

##### ELECT NEW OFFICERS

The annual business meeting and election of officers of the University Alumni association was held last evening. Holden Benson was chosen to succeed C. E. May as president. The other officers are: Mrs. Charles Smith, Williams, vice president; D. R. Allen, secretary and treasurer; E. A. Smith was re-elected to the board of control; other members are Waldemar Van Cott, Elmer Benson, Dr. J. F. Merrill and Dr. James E. Talang.

Besides the reports of officers, the discussion of scholarships and loans to students were the only matters to come before the meeting.

#### A REBELLION

##### Food Demanded.

The human body will stand a lot of abuse, but some time it will surely rebel and demand the proper food in place of the party, starchy, greasy stuffs on which it has been made sick.

Then is the time to feed Grape-Nuts, the most scientific and perfect food in the world.

A lady of Washington says: "Three years ago I was very ill with catarrh of the stomach, and was given up to die by one doctor. I laid in bed four months and my stomach was weak that I could not keep down medicine or hardly any kind of food, and was so weak and emaciated after four months that I could hardly lift me from bed and put me in my chair."

"But weak as my stomach was, it accepted and relished and digested Grape-Nuts without any difficulty the first time that wonderful food was tried."

"My doctor told me to eat Grape-Nuts, which were predigested, and although I felt certain I could not keep the food on my stomach, I made the trial and it was a most complete success."

"I am now strong and in better health than for a great many years, and am gradually growing still stronger. I rely on Grape-Nuts for most of the nourishment that I get. The results have certainly been wonderful in my case, and prove that no stomach is so weak it will not digest Grape-Nuts."

"My baby got so fat from feeding on Grape-Nuts I was afraid I would have to stop giving the food to him, but I guess it is a healthy fat, for his health is just perfect."

Look in pkgs. for the famous little book, "The Road to Wellville." "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## \$650,000 FOR IMPROVEMENTS

Ogden to Get Foundry and Passenger Car Shop in All Probability.

When W. H. Bancroft returns from New York, where he has been in consultation with E. H. Harriman he will have in his possession the plans for about \$650,000 worth of improvements for Ogden which were approved by Mr. Harriman.

From an authentic source it is learned that the plans include those for a freight office, foundry, additional trackage for the passenger depot, undoubtedly a passenger car shop and other minor improvements which have been contemplated for Ogden and Salt Lake.

In the plans carried east by Mr. Bancroft to be submitted to Mr. Harriman for his approval, were, it is stated, those for a \$100,000 freight depot, \$350,000 for a car foundry, about \$50,000 for additional side tracks for the freight and passenger yards. It is very probable he carried plans for a passenger car shop which would cost approximately \$150,000.

The foundry is one that has been talked of in railroad circles for many months, and is much needed by the company for the manufacture of car wheels, as the company has not a foundry between Omaha and Sacramento. The location of the foundry will undoubtedly be west of the Union depot tracks close to the Weber river and it would cover several acres.

The matter of building a passenger car shop in Ogden is another one of the many improvements which will probably be started within the next five months. Omaha and Sacramento are the only places on the system that are equipped with shops for the manufacture and repair of passenger cars and on account of Ogden's location as a railroad junction of all the Harriman lines in the west, the advisability of building the shops has been considered. The shops, it is stated, would cost about \$150,000, and would be large enough to accommodate twenty coaches at once. This would necessitate a building about 300 feet long and 100 feet in width.

The building of five or six additional side tracks in the Union depot yard immediately west of the present depot tracks will, it is believed, be the first of the improvements.

### FORD CASE GOES OVER.

Man Charged With Beating Woman Who Wouldn't Support Him.

In the police court before Judge Murphy yesterday the case of the city against George C. Ford, charged with vagrancy, was called for trial, but was continued as the defendant had expressed a desire to secure an attorney. The complaining witness in the case is a frail little woman, giving the name of Lola Jefferson, and she makes startling allegations against the defendant, such as causing her to leave a husband in California with \$20 and Ford, after the money was spent, brutally beat her for not entering upon a life of shame to furnish money with which he could gamble.

The husband of the woman was committed with the Lola Pedro regarding her plight and the following morning was received by the police. "Wife had \$20 when she left. She must work."

### RICH STRIKE MADE IN SPENCER LEASE

H. H. Spencer, president of the Spencer Lumber company of this city, received a telegram yesterday afternoon from his son, L. B. Spencer, at Hawthorne, Nev., stating that a two-foot vein of ore running \$300 to the ton had been struck on the Spencer lease on the Lucky Boy No. 5, which adjoins the Hubbard lease.

According to subsequent dispatches the first was properly confirmed and stated that there was considerable excitement in the camp of Lucky Boy.

The Hubbard lease, owned by Adams and Miller, the Hawthorne merchants, has been a big strike about a month ago and eastern capitalists are now negotiating for the purchase of the property. Interested in the Spencer lease besides the Spencers is John Pinger, of the First National bank of Ogden. Mr. Pinger and Mr. Spencer will undoubtedly leave with in the next day or two for Hawthorne, Nev.

### TAKE BOYS FROM EVIL INFLUENCES

Judge Gunnell of the juvenile court has started a crusade up the numerous gangs of boys about the city who have caused the police considerable trouble. The court's plan is to send the boys away from the city to be placed in the care of relatives. Yesterday afternoon Judge Gunnell handled two cases of this nature. The first was that of Bryan Boyle, who was committed to the custody of his sister, Mrs. Vanderhoof, at Promontory station the other case was that of Ralph Hall, who was sent to Iowa by his mother.

### WILL PARK 24TH STREET.

No Cost to City, Which, However, Will Maintain It.

At the session of the city council last night permission was granted the civic improvement league to park the center of Twenty-fourth street between Washington and Adams avenues and between J. C. Nye appeared in behalf of the league and stated that if the permission was granted to park the street the city would be under no expense whatever and would only have to maintain it. The request was granted.

A petition was received from L. W. Shurtliff and others asking that the poles be removed from the center of Twenty-fourth street between Washington and Adams avenues. The city engineer also called the council's attention to the fact that the poles in the center of the same street, between Washington and Wall avenues would have to be removed before paving of the street could be started. Both matters were referred to the engineer and street committee.

A resolution was introduced, which passed, by Councilmen Peery and Thomas requiring the Ogden Rapid Transit company to remove its trolley poles from the center of Twenty-fifth street between Washington and Wall avenues. The company was given the right to erect steel poles on each side of the street. The work must be done within thirty days.

Communication was received from the executive committee of the G. A. R. requesting that \$1,500 be appropriated for the entertainment of the veterans. The petition was referred to the finance committee.

The ordinance defining the duties of the poll tax collector passed its final reading. An ordinance providing for the operation and maintenance of the waterworks system passed its first and second readings, and was referred to the law committee and city attorney.

The usual bills and payrolls were read and allowed.
